MEMORANDUM

TO: Holland Shepherd
Senior Reclamation Specialist
Division of Oil, Gas and Mining

FROM: Wayne Thomas, P.E., *W.T.*
Southwest District Engineer
Department of Environmental Quality

DATE: August 21, 1991

SUBJECT: Notice of Intention to Commence Small Mining
Operations, Magic Mountain Project, S/017/025, Garfield
County, Utah

We have reviewed the notice of intention to commence small mining operations for the above reference project, which we received on July 26, 1991. It is our understanding that this operation will not involve on-site processing of mined material, and that the operation will consist only of mining material with a backhoe and/or a frontend loader, and sizing of the material.

Our review of this notice of intention would indicate that no permits from the Department of Environmental Quality are required, we would however like to remind the applicant of the need to comply with Section 4.5 of the Utah Air Conservation Regulations regarding fugitive emissions.
